

Name: Carolyn McMorro 4th Year BBS Business & Management

Partner Institution: VSFS Prague

Description:

I studied in VSFS in the center of Prague, Czechia. I stayed for the full year, both studying and working part-time. The university was much smaller than Maynooth, however the community was closely knit.

What I Did:

Start Date: 24/09/2018 End date: 01/06/2019

I took modules in Sociology, Consumer Culture, International Business Relations, Microeconomics, Fundamentals of Private Law, Spanish, Publishing Management, Media and Public Opinion

My everyday routine was quite busy. I worked part time in an Irish Pub, which is where I was lucky to meet some close friends. Time spent at college was only a few long days a week (maybe even only two), so networking with people from college was mostly organized by the international office.

Learning Outcomes:

- Learning Basic Czech. Most people enjoyed that I even tried. It's quite hard but fun to attempt!
- Global mindset and understanding of other cultures was the big learning curve.
- Communication, Social, Organizational Skills improvement.
- I would repeat this experience – Prague shaped my degree and my ambitions to possibly become an entrepreneur.
