Dé Máirt, an 28 Bealtaine 2024

Seo grianghraf den trófaí a bhuaigh Manchester United.

Manchester City v Manchester United

Bhí cluiche ceannais Corn FA ar siúl Dé Sathairn. Bhí an cluiche ar siúl i Staid Wembley.

An scór a bhí ann ag deireadh an chluiche ná Manchester United 2- Manchester City 1.

Scóráil Garnacho agus Mainoo do Manchester United. Scóráil Doku do Manchester United.

Beidh Manchester United ag imirt sa tSraith Europa anois an bhliain seo chugainn! Comhghairdeas leis an bhfoireann!

Lá Idirnáisiúnta na mBeacha

Bhí lá idirnáisiúnta na mBeacha ar siúl an tseachtain seo caite.

Baineann an lá seo le ceiliúradh a dhéanamh ar thábhacht na mbeach.

Is pailneoirí iad. Tá ról an-tábhachtach acu i ndéanamh bia agus san éiceachóras.

Ar mhaith leat níos mó a fhoghlaim mar gheall ar na beacha…bhuel léigh an iris *BioBeo Buzz*!

BioBeo Buzz
Bealtaine 2024

Welcome to a very special edition of BioBeo Buzz. We are absolutely buzzing to release this issue on May 20th - World Bee Day! This day is all about celebrating the importance of bees and other pollinators, the role they play in food production and keeping ecosystems healthy. Read on for lots of fun activities, jokes and actions WE can take to help protect these fuzzy little magicians!

Let's Plant Lavender for Bees!

This May, we're going to plant lavender to help our buzzy friends, the bees!

You will need:
- Small pots or containers - try making a used newspaper pot that you can transfer straight into the ground later!
- Potting soil (make sure it is "peat free" if buying!)
- Lavender seeds or small lavender plants
- Watering can

Steps:
1. Fill the pots with soil.
2. Put the lavender seeds or plants in the soil.
3. Water them gently.
4. Put them in a sunny spot.
5. Keep the soil moist, not too wet.
6. Wait and watch them grow!
7. Bees will love the flowers!
8. Enjoy the beautiful lavender and happy bees!

Dictionary Corner

To start learning about the Bioeconomy we need to …derstand the words used to describe it! In each issue we will … a new term and challenge you to learn one yourselves! …nth we asked you what "sustainable" meant. I bet you … with lots of great answers! Here is our definition:

…Acting sustainably means acting in a way that does not …harm the environment and does not use up all of its natural resources. Being sustainable in our actions and in our use of resources means that there will be enough of these essential resources for people living in the future".

Now it's your turn! To mark #WorldBeeDay - Can you find out the meaning of the word pollination? Check back next month for our description!

Joke Hive

Why did the bee go into business?
Answer: Because it wanted to make some "buzz" in the Bioeconomy!

How do bees communicate the success of their honey production to the queen bee?
Answer: They give her a "hive-five"!

3. Why did the bee get a promotion in the Bioeconomy?
Answer: Because it was the "bees-knees" at generating buzz and maximising honey yields!

Is pailneoirí iad na beacha.

Freastalaíonn Sabina agus Michael D Ó hUiginn ar Bloom. Is aoibhinn leo an nádúr.

Bloom

Is féile iontach í Bloom. Tá a lán plandaí agus bia ar fáil ag an bhféile.

Beidh an fhéile ar siúl an deireadh seachtaine seo i bPáirc an Fhionnuisce arís.

Foghlaimíonn gach duine a fhreastalaíonn ar an bhféile seo go leor faoin nádúr agus faoi phlandaí éagsúla.

An bhfuil seans ann go bhfaca an tUachtarán cuil ghlas ar an bplanda seo? Tá cuma air nach bhfuil sé róshásta!
