

## **MH415 - BSc Economics (Integrated with MSc Economics)**

### **FAQ:**

#### **6- *Why BSc in Economics?***

In all sectors public and private from financial services to agriculture, firms and institutions need people with solid understanding in Economics who can analyse and interpret data. This requires significant quantitative education beyond the Economics core in BA Arts. In addition to Economics, from first year onwards you study statistics, econometrics and programming. And these are required to critically analyse and interpret numerical data.
