Teach with MATLAB and Simulink

Access and Download Software via your MATLAB Portal

- https://uk.mathworks.com/academia/tah-portal/maynooth-university-31555618.html

Remote Access to MATLAB (for Teachers and Students)

- MATLAB Online Launch MATLAB in your Web Browser (no installations or downloads required - see limitations)
- MATLAB Mobile Connect to MATLAB directly from your phone or iPad
- MATLAB Drive   Manage and Share your MATLAB files in the cloud

MATLAB Online Training (for Teachers and Students)

- MATLAB / Simulink Online Training Suite Learn at your own pace with a choice over 22 online interactive courses

Online Teaching with MATLAB and Simulink (for Teachers)

- Resources for Online MATLAB and Simulink Creating interactive and engaging course materials
- MATLAB Live Editor Create scripts that combine code, output, and formatted text in an executable notebook (examples)
- MATLAB Grader Automatically grade MATLAB code in any learning environment
- MATLAB Courseware Teach both within and outside of the classroom using resources tailored to multiple disciplines

Learn more about availability of remote resources and tools (for Teachers)

- Teaching with MATLAB Discover more about these online interactive resources at your own pace
