More information on the back of this card

On behalf of the Student Orientation Team, welcome to Maynooth University. We look forward to meeting you and helping you thrive.

The first few weeks of college are an exciting time. You'll get settled in, meet fellow students and lecturers, and continue exploring your interests. The MyMaynooth Orientation Programme is here – online and in person – to assist you in this transition.

- Begin your journey on the my.maynoothuniversity.ie website which covers the basics of what you need to know prior to registration.
- Once registered, you can access the **Moodle course** which provides more in-depth information on what your first four weeks will look like.
- **Welcome Week** is when we'll get to meet you in person and you can complete your registration.
- Updates will then be added to the Moodle course at just the right time **throughout the year** to support your journey.

Visit my.maynoothuniversity.ie for more information including our schedule of subject information talks!

From information about your subject choices, academic and student support services, student life, extra-curricular opportunities, key events and dates **MyMaynooth** will help you settle into university life.

Once again a warm welcome to the Maynooth University community.
