

## PROOF OF CONCEPT SEED FUND

### Are you a researcher? Are you interested in securing seed funding to test your emerging ideas?

The MaynoothWorks Proof of Concept (PoC) call will provide up to €15k per project to fund the initial demonstration of innovative ideas addressing societal or industrial challenges. Proposals may be led by any Maynooth University academic, but you are encouraged to develop them with students and non-academic staff partners. All applications will receive training opportunities and feedback to identify and develop early-stage opportunities into innovative products or services, and even unsuccessful applications may be considered for downstream funding.

#### 1 Important Dates

PoC Seed Fund Call open

October 3rd, 2022

**Application Deadline**

**November 14th, 2022**

#### 2 How to Apply

Please complete our short online application form by following the link below
